The listing shall include the name of each subcontractor/material supplier proposed, the work or the material the subcontractor/material supplier will provide, and the percentage of the overall project.

Article 4. Payment

4.1 **Payment.** CONTRACTOR pricing shall be as specified in **Exhibit C**, attached hereto and incorporated herein by reference. Payment for each individual cycle will be based upon the LUMP SUM cost agreed upon and identified in the Scope of Services. Neither progress payment nor partial or entire use or occupancy of the project by the COUNTY will constitute an acceptance of work not in accordance with the contract documents. In no event shall this contract exceed **\$336,102.40**, unless a duly authorized change order is approved in accordance with the COUNTY'S Procurement Policies and Procedures.

4.2 **Additional Services.** The COUNTY may from time to time request the CONTRACTOR'S assistance with roadside mowing, trimming, and litter removal in other areas of the County. In the event the County requests such services, the CONTRACTOR shall provide such services in accordance with the Pricing set forth in **Exhibit C**. 4.3 **Invoices.** Invoices shall be submitted within thirty (30) days of completion of a cycle. All invoices shall contain the purchase order number, invoice date, itemized work, date of service specific to each location, dump tickets for litter, person to contact and their phone number for billing questions and location of delivery or service, and confirmation of acceptance of the goods or services by the appropriate COUNTY representative. Failure to submit invoices in the prescribed manner may delay payment, or payment may be denied if the COUNTY cannot verify the completion of the work due to delay, and the CONTRACTOR may be considered in default of contract and its contract may be terminated. Payments shall be tendered in accordance with the Florida Prompt Payment Act, Part VII, Chapter 218, Florida Statutes.

Address for invoicing: Attn: Lori Conway, Road Operations Division Manager, Lake County Public Works, Post Office Box 7800, Tavares, FL 32778. All invoices shall be supplemented with statements showing the proper disposal of the litter picked up each cycle.

4.4 **Price Redetermination – Fuel.** If the below-identified price index for fuel (gas and/or diesel as applicable to the CONTRACTOR'S operation) increases by ten percent (10%) or more from the price index in effect on the beginning date of any contract resulting from this solicitation, the CONTRACTOR may petition the Procurement Services Manager in writing for an appropriate increase in the contract price(s). Any increase in the contract price(s) will be applied considering the relation of fuel cost to the contractor's total cost for the contracted product or service.

Any price re-determination will be solely based upon the percentage change between the base index and the current month index as documented by the:

State of Florida Department of Management Services
http://dms.myflorida.com/business_operations/state_purchasing/CONTRACTOR_information/state_contracts_agreements_and_price_lists/state_term_contracts/gasoline_and_fuel_oil/price_sheets_daily_price/price_sheets_current_pricing for unleaded gas, Florida PAD 1, Orlando.

The base index will be the index number for the month prior to the solicitation closing date. The current month index will be the last month's index published before the request for a price re-determination is made.

The CONTRACTOR shall provide (in writing) a cost analysis as described below for each contract price for which the CONTRACTOR is requesting adjustment. This analysis must include the percentage increase calculation between the base and current month indices; a clear and detailed representation of the fuel cost component of any contract price for which an adjustment is requested; and a calculation showing the original contract price, the requested adjustment, and the proposed revised price. As an example: if the fuel index increases by twelve percent (12%) and the fuel cost accounts for ten percent (10%) of the cost of the product or service, then the contract price may be increased by 1.2 % ($0.12 / 0.10$). The CONTRACTOR may submit additional clarifying or justifying information for the COUNTY'S consideration. Failure to provide sufficient detail in the manner described above shall result in rejection of the CONTRACTOR'S request for pricing adjustment.

If the Procurement Services Manager grants any increase in any contract price based upon this clause, the increased price(s) may be adjusted downward on a unilateral basis by the COUNTY if the fuel index(es) used to support any previous increase then decrease by ten percent (10%) or more. Any such decrease will be based on the calculations submitted by the CONTRACTOR pertaining to any previous price increase.

4.5 Certification of Payment to Subcontractors/Materials Suppliers. Prior to final payment to the CONTRACTOR on projects which **DO NOT** require a performance and payment bond, CONTRACTOR shall provide *Certification of Payment to Subcontractors/Materials Suppliers* before the invoice is processed and paid.

4.6 Federal or State Funding. IF ANY PROJECT GIVEN TO THE CONTRACTOR UNDER THIS AGREEMENT IS ONE IN WHICH FEDERAL OR STATE FUNDS SHALL BE USED, THE CONTRACTOR IS HEREBY INFORMED THAT PAYMENT SHALL BE CONTINGENT UPON RECEIPT OF SAID FEDERAL OR STATE FUNDS OR APPROVAL. ADDITIONALLY, PAYMENT SHALL BE CONTINGENT UPON THE CONTRACTOR COMPLETING ALL REQUIRED FORMS AND DOCUMENTATION AS IS NECESSARY IN ORDER TO OBTAIN SUCH FEDERAL OR STATE FUNDING OR APPROVAL.

4.7 E-Verify. CONTRACTOR acknowledges and agrees that CONTRACTOR shall utilize the U.S. Department of Homeland Security's E-Verify system in accordance with the terms governing use of the system to confirm the employment eligibility of:

The office shall be staffed by a competent representative who can be contacted during normal working hours and who is authorized to discuss matters pertaining to this Agreement. The COUNTY reserves the right to perform an inspection of the local office during the term of this Agreement, and to use this inspection as a means to determine the qualifications of the CONTRACTOR.

Article 5. County Responsibilities

No such consent shall be construed as making the COUNTY a party to the assignment or subjecting the COUNTY to liability of any kind to any assignee. No assignment shall under any circumstances relieve the CONTRACTOR of liability and obligations under this Agreement and all transactions with the COUNTY must be through the CONTRACTOR. Additionally, unless otherwise stipulated herein, the CONTRACTOR shall notify and obtain prior written consent from the COUNTY prior to being acquired or subject to a hostile takeover. CONTRACTOR shall provide access to all of its records, which relate directly or indirectly to this Agreement at its place of business during regular business hours. CONTRACTOR shall retain all records pertaining to this Agreement and upon request make them available to the COUNTY for five (5) years following expiration of the Agreement. CONTRACTOR agrees to provide such assistance as may be necessary to facilitate the review or audit by the COUNTY to ensure compliance with applicable accounting and financial standards.

B. All items sold to the COUNTY under this Contract are subject to post sale audit adjustment. It shall be understood that the vendor shall mow the rights of way on both sides of the centerline of the road to the previously established and recognized limits of mowing. The vendor shall note that the rights of way widths will vary. There will be areas to be mowed that are only five (5) feet from the edge of pavement while other areas to be mowed can be as wide as fifty (50) feet or more. Any retention areas that are in conjunction with a road shall be mowed by the vendor and shall be part of the overall centerline mileage price as provided in Section 4, Pricing Section. The unit cost supplied by the vendor of this RFP shall be per mile of centerline miles regardless of the width of the mowing.
3. The vendor shall be responsible to remove trash in these same areas.
4. During the first cycle for all roads, the vendor will be responsible for bringing all areas specified in the contract up to a maintainable standard. All costs of restoring these areas shall be included in the unit price bids. No additional compensation will be given to the vendor for bringing the specified areas up to a maintainable level. All work locations provided by the County will be considered in an "as is" condition.

TECHNICAL REQUIREMENTS

Tickets showing the proper disposal at an approved State Permitted Facility shall be supplied to the County with each invoice. The vendor shall include the date, road, and cycle number on the tickets. The invoice shall not be paid until the vendor supplies tickets to the County from the waste disposal site. This information shall be used by the County for an annual National Pollution Discharge Elimination System report; therefore, accurate accounting of the trash removed by the vendor is essential.

- B. Areas that are being mowed by adjacent landowners shall be avoided and not mowed. This shall be accomplished by raising the mowing deck and bypassing the area either in a way so that no damage shall be caused to the property, or by driving in the road.

The vendor shall mow up to the limits maintained by Lake County and around existing appurtenances located within the roadway rights of way. If there is neither a fence line nor tree line to distinguish the limits of mowing, the vendor shall make every effort to mow to the existing mow line so that there is a consistent area of right of way being mowed. If there is a fence that dictates the right of way boundary, the vendor shall mow to a distance that is no greater than one (1) foot from the fence.
- G. When mowing areas within ten (10) feet of the travel way, the equipment shall be operated in the direction of traffic. This provision does not apply when the specific work-site is protected by flagmen and warning signs in accordance with the Manual on Uniform Traffic Control Devices.

- I. When necessary for mowing machines to cross bridges with full width shoulders, the crossing shall be made on the shoulder. If no shoulder is available, the mowing machines shall cross the bridge with the direction of traffic and shall be timed so as to not impede traffic when possible. All bridges shall be crossed with extreme care and operations shall be planned to reduce such crossings to a minimum.
- J. When necessary for mowing machines to cross the travel way, a location shall be selected that provides a minimum of five hundred (500) feet of unobstructed sight distance. The operator shall stop before crossing the travel way and permit closely approaching vehicles to pass before crossing. Operations shall be planned to minimize crossings.
- K. At no time shall the vendor mow wildflowers that may be growing whether or not they are in designated wildflower area. If there is any question if a certain plant should be mowed, it shall be the responsibility of the vendor to contact the Project Manager for proper guidance.

4. Clipping Removal

- A. During each cycle, all grass clippings that are not uniformly distributed and detract from the appearance of the mowing operation will be removed from the job site by the vendor upon completion of the mowing operation to allow for a neat and clean appearance after completion.
- B. Grass clippings will not be blown into drains or storm drain inlets or wet retention ponds. Failure to adhere to this will result in the vendor removing clippings from the water and jetting out affected pipes and drains at his/her own expense within two (2) calendar days after notification or reimbursing the County for the expense of the associated cleanup effort.

5. Order of Operation

- A. The vendor submits a daily schedule to the County prior to beginning each cycle. This schedule shall show the dates that the vendor anticipates completing the work at each location.

Areas determined to be unsatisfactory by the Project Manager shall be re-mowed at no additional cost to the County and shall be completed within the original cycle period.

- E. The vendor submits an invoice with the corresponding dump tickets and herbicide log after completion of the cycle.

6. Schedule

- A. Each cycle start date shall be based on the schedule shown below. All areas as listed in Section 5, Attachment 4, and any areas that may be added to the contract in the future, shall be completed within four (4) weeks (equivalent to 28 calendar days).
- B. For the purposes of bidding, there shall be eight (8) mowing with trash removal cycles and four (4) trash removal only cycles for the contract period. For example, if the vendor chooses not to start the cycle until one (1) week after the cycle start date, then each subsequent cycle shall be started on the same road at the same start time of one (1) week after the cycle start date. There shall be no variation in the route or time line without prior approval of the Project Manager.
- F. The vendor shall contact the Project Manager daily with the progress of the preceding day and the anticipated completion of the work for the upcoming day. This notification shall be either an e-mail (preferred) or fax and shall be delivered before 9:00 a.m. of each working day.
- G. The vendor shall consult with the Project Manager prior to any schedule variance, including when work is interrupted due to weather, breakdowns, etc. The notification shall occur the day before when possible, or if the vendor has reason to stop work

- H. No extensions of time shall be granted for items such as, but not limited to: equipment, failure, rain or other weather conditions.
- I. Areas covered under this contract shall be maintained every four (4) weeks (equivalent to 28 calendar days), unless otherwise authorized by the Project Manager.  - 1. The cycle is not completed within the four (4) week cycle (28 days). These liquidated damages will start the third calendar day after notification and will continue for each calendar day thereafter until reported deficiencies are corrected per contract specifications.

These liquidated damages will start the first calendar day the vendor deviates from the approved plan and will continue for each calendar day thereafter until affected areas are maintained as required on the work plan.

7. Communication and Quality Control

The vendor shall designate a competent representative who will be responsible for the quality control of this contract and who will not be replaced without written notice to the Project Manager at least twenty-four (24) hours before or after the replacement. The vendor's representative shall be present at job sites and shall have the authority to act on behalf of the vendor. All communications given to the vendor's representative will be as binding as if given to the vendor.

To effectively communicate with County staff while in the field, the vendor's representative shall have available communication devices with internet access (including email) (e.g. cellular phone, laptop computer, smartphone, etc.). This mandatory requirement will ensure proper communication and documentation of problems while performing operations in contracted areas. All conversations with County staff shall be documented via email, including but not limited to: weather/unusual condition delays, contractual issues, instructions given by County staff, etc.

Any work, materials, or equipment that may reasonably be inferred from the contract documents as being required to produce the intended result shall be supplied whether or not specifically called for. When words which have a well known technical or trade meaning are used to describe work, material or equipment, such words shall be interpreted in accordance with that meaning. Reference to standard specifications, manuals or codes of any technical society, organization or association or to the laws or regulations of any governmental authority having jurisdiction over the project, whether such reference be specified or by implication, shall mean the latest standard specification, manual, code, law or regulation in effect at the time the work is performed, except as may be otherwise specifically stated herein.
- B. The contract documents and all referenced standards cited therein are essential parts of the contract requirements. A requirement occurring in one is as binding as though occurring in all. They are intended to be complementary and to describe and provide for a complete project.
- C. Drawings are intended to show general arrangements, design and extent of work. Specifications are separated into divisions for convenience of reference only and shall not be interpreted as establishing divisions for the work, trades, subcontracts, or extent of any part of the work. In the event of a discrepancy between or among the drawings, specifications or other contract document provisions, the CONTRACTOR shall be required to comply with the provision which is the more restrictive or stringent requirement upon the CONTRACTOR, as determined by the Project Manager. Unless otherwise specifically mentioned, all anchors, bolts, screws, fittings, fillers, hardware, accessories, trim and other parts required in connection with any portion of the work to make a complete, serviceable, finished and first quality installation shall be furnished and installed as part of the work, whether or not called for by the contract documents.

2. **ERRORS AND OMISSIONS**

The CONTRACTOR shall not take advantage of any apparent error or omission in the contract documents. If any error or omission appears in the contract documents, or construction stakeout, the CONTRACTOR shall immediately notify the Project Manager in writing, of such errors or omissions. In the event the CONTRACTOR knows or should have known of any error or omission and fails to provide such notification, the CONTRACTOR shall be deemed to have waived any claim for increased time or compensation the CONTRACTOR may have had and the

CONTRACTOR shall be responsible for the results and the costs of rectifying any such error or omission.

3. **EMERGENCIES**

- A. The CONTRACTOR shall have a responsible person available at or reasonably near the work site on a twenty four (24) hour basis, seven (7) days a week, who may be contacted in emergencies and in cases where immediate action must be taken to maintain traffic or to handle any other problem that might arise. The CONTRACTOR'S responsible person for supervision for emergencies shall speak and understand English. The CONTRACTOR shall submit to the Project Manager, by certified mail, the phone numbers and names of personnel designated to be contacted in cases of emergencies along with a description of the work site. Included in this list shall be twenty four (24) hour contact phone numbers for all subcontractors, if any, performing work under this Agreement. This list shall contain the name of their supervisors responsible for work pertaining to this contract.
- B. In the event of an emergency affecting the safety or protection of persons or the work or property at the project site or adjacent thereto, the CONTRACTOR, without special instruction or authorization from the Project Manager is obligated to act to prevent threatened damage, injury or loss. The CONTRACTOR shall give the Project Manager written notice as soon as possible, but no later than twenty-four (24) hours after the occurrence of the emergency, if the CONTRACTOR believes that any significant changes in the work or variations from the contract documents have been caused thereby. If the Project Manager determines that a change in the contract documents is required because of the action taken in response to an emergency, a change order may be issued to document the consequences of the changes or variations. If the CONTRACTOR fails to provide written notice within the twenty-four (24) hour limitation noted above, the CONTRACTOR shall be deemed to have waived any right it otherwise may have had to seek an adjustment to the contract amount or an extension to the contract time.

4. **COMPLIANCE WITH OCCUPATIONAL SAFETY AND HEALTH / HAZARDOUS MATERIALS**

- A. CONTRACTOR certifies that all material, equipment, etc., to be used in an individual project meets all Occupational Safety and Health Administration (OSHA) requirements. The CONTRACTOR further certifies that if any of the material, equipment, etc., is found to be deficient in any OSHA requirement in effect on the date of delivery, all costs necessary to bring the material, equipment, etc., into compliance with the aforementioned requirements shall be borne by the CONTRACTOR.
- B. Any item delivered under this contract shall be accompanied by a Material Safety Data Sheet (MSDS). The MSDS shall include the following information:

1. The chemical name and the common name of the toxic substance;
 2. The hazards or other risks in the use of the toxic substance, including, the potential for fire, explosion, corrosiveness, and reactivity;
 3. The known acute and chronic health effects of risks from exposure, including the medical conditions which are generally recognized as being aggravated by the exposure to the toxic substances;
 4. The primary route of entry and symptoms of exposure;
 5. The proper precautions, handling practices, necessary personal protective equipment and other safety precautions in the use of or exposure to the toxic substances, including appropriate emergency treatment in case of overexposure;
 6. The emergency procedure for spills, fire, disposal and first aid;
 7. A description in lay terms of the known specified potential health risks posed by the toxic substance intended to alert any person reading this information; and
 8. The year and month, if available, that the information was compiled and the name, address and emergency telephone number of the manufacturer responsible for preparing the information.
- C. Any spillage of hazardous chemicals and/or wastes caused by the CONTRACTOR must be reported immediately to the Project Manager and cleaned up in accordance with all State and Federal Regulations. The cost of cleanup of any spillage of hazardous chemicals caused by the CONTRACTOR shall be the sole responsibility of the CONTRACTOR and the COUNTY will share no responsibility for these costs. A copy of a completed compliance order with local, state, and federal agencies shall be given to the COUNTY.
- D. If any hazardous chemicals or conditions are discovered during the normal work operation, it is the responsibility of the CONTRACTOR to immediately contact the Project Manager with a description and the location of the condition.
- E. All standard equipment, work operations, safety equipment, personal protective equipment, and lighting required or mandated by State, Federal, OSHA, or ADA regulations must be provided by the CONTRACTOR.
- F. The Project Manager or other COUNTY representatives may periodically monitor the work for safety. Should there be safety and/or health violations, the COUNTY's representative may have the duty to require the CONTRACTOR to correct the violation in an expeditious method. If there is any situation that is deemed unsafe by the Project Manager or other COUNTY representatives, the project will be shut down immediately upon notice and will not resume work until the unsafe condition has been remedied.
- G. Should the work site be in a hazardous area, the COUNTY shall take reasonable actions to furnish the CONTRACTOR with information concerning hazards such as types or identification of known toxic material, machine hazards, Material Safety Data Sheets, or any other information that would assist the CONTRACTOR in the

planning of a safe work site. The CONTRACTOR retains the ultimate responsibility to ensure all work is performed in a manner consistent with all applicable safety standards and directives.

- H. CONTRACTOR shall be aware that while working for the COUNTY representatives from agencies such as the United States Department of Labor, Occupational Safety and Health Administration (OSHA), and the Division of Safety, State of Florida, are invitees and do not need to have warrants or permission to enter the work site.
- I. At a minimum, all equipment used within the right of way shall be equipped with a slow moving vehicle sign, properly operating amber flashing or white strobe light. All safety devices installed by the manufacturer shall be in place and in proper working order. If the Project Manager determines that equipment is deficient in safety devices, the CONTRACTOR shall be notified immediately. The CONTRACTOR shall immediately repair, or remove the equipment from service until the deficiency is corrected to the satisfaction of the Project Manager.
- J. The CONTRACTOR shall designate a competent person of its organization whose duty shall be the prevention of accidents at the site. This person shall be literate and able to communicate fully in the English language because of the necessity to read job instructions and signs, as well as the need for conversing with management personnel. This person shall be the CONTRACTOR'S Superintendent unless otherwise designated in writing to the Project Manager. All communications to the Superintendent shall be as binding as if given to the CONTRACTOR.

5. **GENERAL INSPECTION REQUIREMENTS.**

- A. Due to the nature of this Agreement, the COUNTY shall at the time of establishment of need require the CONTRACTOR to become fully informed as to where items are to be installed and/or the nature and extent of the work required and its relation to any other work in the area, including possible interference from other site activities. Arrangement for CONTRACTOR'S inspection of facilities or sites and/or activity schedules may be secured from the user department. Failure to visually inspect the facilities or sites may be cause for disqualification of CONTRACTOR on that individual project.
- B. CONTRACTOR shall furnish the Project Manager with every reasonable facility for ascertaining whether the work performed and materials used are in accordance with the requirements and intent of the plans and specifications. If the Project Manager so requests, the CONTRACTOR shall, at any time before final acceptance of the work, remove or uncover such portions of the finished work as may be directed. After examination, the CONTRACTOR shall restore the uncovered portions of the work to the standard required by the specifications. Should the work exposed or examined prove unacceptable in the opinion of the Project Manager, the uncovering or removal, and the replacing of the covering or making good of the parts removed, shall be at the CONTRACTOR's expense. However, should the work exposed or examined prove acceptable in the opinion of the Project Manager, the uncovering or

removing and the replacing or the covering or making good of the parts removed, shall be paid for as unforeseen work.

- C. If during or prior to construction operations, the Project Manager should fail to reject defective work or materials, whether from lack of discovery of such defect or for any other reason, such initial failure to reject shall in no way prevent the Project Manager's later rejection when such defect is discovered, nor obligate the COUNTY to final acceptance or payment, and the CONTRACTOR shall make no claim for losses suffered due to any necessary removals or repairs of such defects.
- D. If during or prior to construction operations, the Project Manager rejects any portion of the work on the grounds that the work or materials are defective, the Project Manager will give the CONTRACTOR written notice of the defect. The CONTRACTOR shall then have seven (7) calendar days from the date the notice is received to correct the defective condition. If the defect has not been corrected within seven (7) calendar days, the Project Manager will send a second written notice to the CONTRACTOR giving the CONTRACTOR another seven (7) calendar days to correct the defect. If the CONTRACTOR fails to correct the deficiency within the second seven (7) calendar days after receipt of the notice, the Project Manager will notify the COUNTY so that the COUNTY may take whatever action is necessary, including correcting the deficient work utilizing another contractor or terminating the contract.
- E. Should the CONTRACTOR fail or refuse to remove and renew any defective material used or work performed, or to make any necessary corrections in an acceptable manner and in accordance with the requirements of the specifications, within the time indicated in writing, the COUNTY, will have the authority to cause the unacceptable or defective materials or work to be repaired, removed and replace, as may be necessary, at the CONTRACTOR'S expense. Any expense incurred by the COUNTY, whether direct, indirect or consequential, in making the repairs, removals, or replacements, which the CONTRACTOR has failed or refused to make, shall be paid for out of any monies due or which may become due the CONTRACTOR, or may be charged against the contract bond, if any. A Change Order will be issued, incorporating the necessary revisions to the contract documents, including an appropriate decrease to the contract amount. Such direct, indirect and consequential costs shall include, but not be limited to, costs of repair and replacement of work of others destroyed or damaged by correction, removal or replacement of work of the CONTRACTOR'S defective work and additional compensation due the COUNTY. The CONTRACTOR shall not be allowed an extension of the contract time because of any delay in performance of the work attributable to the exercise by the COUNTY of the COUNTY'S rights and remedies hereunder.
- F. When the United States Government or the State of Florida is to pay a portion of the cost of construction, the work will be subject to such inspection by Federal or State representatives as deemed necessary, but such inspections will in no case make the United States Government or the State of Florida a party to this contract.

- G. All work performed and all materials furnished shall be in reasonably close conformity with the lines, grades, cross sections, dimensions, and material requirements, including tolerances, shown on the plans or indicated in the specifications. In the event the Project Manager finds the materials or the finished product in which the materials are used not within reasonably close conformity to the specifications, the Project Manager will then make a determination if the work shall be accepted and remain in place. In this event, the Project Manager will document the basis of acceptance by a Change Order which will provide for an appropriate deduction as needed in the contract price for such work or materials as the Project Manager deems necessary to conform to the determination based on the Project Manager's professional judgment.
- H. Materials shall be so placed to permit easy access for proper inspection and identification of each shipment. Any material which has deteriorated, become damaged, or is otherwise unfit for use, as determined by the Project Manager, shall not be used in the work, and shall be removed from the site by the CONTRACTOR at the CONTRACTOR's expense.

6. **PROJECT MANAGER**

- A. It is agreed to by the parties that the Project Manager will decide all questions, difficulties, or disputes, of whatever nature, which may arise relative to the interpretation of the plans, construction, prosecution and fulfillment of the scope of services and as to the character, quality, amount and value of any work done, and materials furnished, under or by reason of this Agreement.
- B. The Project Manager may appoint such assistants and representatives as desired. They will be authorized to inspect all work done and all materials furnished. This right of inspection in no way means or implies COUNTY control or other supervision over the work done or the work site. This right is solely for the COUNTY'S benefit and imposes no duties or responsibilities on the COUNTY and confers no rights on any other parties. Such assistants will not be authorized to revoke, alter or waive any requirement of the contract documents.
- C. Project Manager will be authorized to call to the attention of the CONTRACTOR any failure of the work or materials to conform to the contract documents, and will have the authority to reject materials until any questions at issue can be referred to and decided by the Project Manager. The Project Manager shall have the authority to suspend the work only if the COUNTY approves such suspension, if the Project Manager is someone other than the COUNTY. The CONTRACTOR shall be immediately notified in writing by the COUNTY of any suspension of the work and such notice shall state in detail the reasons for the suspension. The presence of the Project Manager or other assistant will in no way lessen the responsibility of the CONTRACTOR.

- D. Project Manager shall have the authority to order minor changes in the work not involving an adjustment to the contract amount or an extension to the contract time and not inconsistent with the intent of the contract documents. Such changes may be effected by construction directive and shall be binding on the CONTRACTOR.
- E. Project Manager shall have all other duties and responsibilities as set forth in other sections of this contract.

7. **CONTRACT TIME AND TIME EXTENSIONS**

- A. Unless otherwise provided, contract time shall mean the number of consecutive calendar days from the commencement date noted in the Notice to Proceed to the date on which all work is to be completed. The CONTRACTOR shall diligently pursue the completion of the work and coordinate the work being done on the project by its subcontractors and material suppliers, as well as coordinate the CONTRACTOR'S work with the work of other contractors so that the CONTRACTOR'S work or the work of others shall not be delayed or impaired by any act or omission of any act by the CONTRACTOR. The CONTRACTOR shall be solely responsible for all construction means, methods, techniques, sequences and procedures, as well as coordination of all portions of the work under the contract documents.
- B. Should the CONTRACTOR be obstructed or delayed in the prosecution of or completion of the work as a result of unforeseeable causes beyond the control of the CONTRACTOR, and not due to the CONTRACTOR's fault or neglect, the CONTRACTOR shall notify the Project Manager by telephone as soon as possible and in writing within two (2) business days after the commencement of such delay, stating the cause or causes thereof, or be deemed to have waived any right which the CONTRACTOR may have had to request a time extension.
- C. If the CONTRACTOR complies with the two (2) business days notice requirement, the Project Manager will ascertain the fact and the extent of the delay being claimed and recommend an extension to the contract time when, in the Project Manager's sole judgment, the findings of fact justify such an extension. The CONTRACTOR shall cooperate with the Project Manager's investigation of the delay by providing any schedules, correspondence or other data that may be required to complete the findings of fact. Extensions to the contract time may be granted for only those delays which impact the CONTRACTOR's schedule. Extensions of contract time, if approved by the Project Manager, must be authorized by Change Order.
- D. Weather events are specifically excluded as excused cause for delay under this CONTRACT and no additional days shall be given for rain days.

8. **HOURS OF OPERATION**

- A. Unless otherwise specified in the technical specifications or on the Notice to Proceed all work performed shall be accomplished between the hours of 7:00 A.M. and 5:00 P.M., Monday through Friday, and no work shall be performed on Saturdays, Sundays, or County Holidays, unless permission to work has been requested in writing by the CONTRACTOR and approval, in writing, has been granted by the Project Manager. Work on Saturdays may be permitted by verbal approval from the Project Manager. County Holidays are as follows:

The Project Manager may consider approval in accordance with the provisions stated above, for work on the following days: Martin Luther King, Jr. Day, Memorial Day, Labor Day, Veterans Day, or the Friday after Thanksgiving.
- D. When the CONTRACTOR requests and is approved for Sunday or Holiday work, the COUNTY may assess the CONTRACTOR the sum of Two Hundred Fifty Dollars (\$250.00) per man per day for each Sunday or recognized Holiday worked or planned to work. These fees will be deducted from the final invoice.
- E. At the discretion of the Project Manager, the CONTRACTOR may be required to work non-traditional hours. Non-traditional hours are defined as work between the hours of 5:30 P.M. and 7:00 A.M. Such hours are considered night work and the CONTRACTOR shall be required to operate with light plants and perform Maintenance of Traffic (MOT) in a method appropriate for such operations. If required to perform such work, the CONTRACTOR shall only be permitted to assess the COUNTY the same number of Night Work charges as there are mobilization/demobilization charges for the area requiring such work. Any work

performed during non-traditional hours at the discretion of the CONTRACTOR but not at the requirement of the Project Manager shall not be eligible for payment of the Night Work Charges.

On the CONTRACTOR'S pricing sheet, attached hereto as **Exhibit E**, the CONTRACTOR shall indicate the additional cost for night work on a per mile basis. This cost shall indicate any additional costs that the CONTRACTOR may incur over the cost of the normal day time operations. The CONTRACTOR shall be eligible for reimbursement for night work if required by the Project Manager at the per mile rate shown on the bid sheet.

9. **CHANGES IN WORK**

- A. The COUNTY may at any time, by issuance of a Change Order executed in accordance with the COUNTY's Purchasing Policies and Procedures, make changes within the general scope of this Agreement. The COUNTY assumes no responsibility for any additional costs for work not specifically authorized by an executed Change Order.

10. **CLAIMS AND DISPUTES**

- A. Claims by the CONTRACTOR shall be made in writing to the Project Manager within two (2) business days after the commencement of the event giving rise to such claim or else the CONTRACTOR shall be deemed to have waived the claim. Written supporting data shall be submitted to the Project Manager within ten (10) calendar days after the occurrence of the event, unless the COUNTY grants additional time in writing, or else the CONTRACTOR shall be deemed to have waived the claim. All claims shall be priced in accordance with the provisions of the section in this document entitled "Changes in Work".
- B. The CONTRACTOR shall proceed diligently with its performance as directed by the COUNTY, regardless of any pending claim, action, suit, or administrative proceeding, unless otherwise agreed to by the COUNTY in writing. The COUNTY shall continue to make payments on the undisputed portion of the contract in accordance with the contract documents during the pendency of any claim.

- i. Claims by the CONTRACTOR shall be resolved in the following manner:

Upon receiving the claim and supporting data, the Project Manager will review the claim, or if the Project Manager is not a COUNTY employee, will forward the claim to the COUNTY. The COUNTY will within fifteen (15) business days respond to the claim in writing stating that the claim is either approved or denied. If denied, the COUNTY will specify the grounds for denial. The CONTRACTOR shall then have fifteen (15) calendar days in which to provide additional supporting documentation, or to notify the COUNTY that the original claim stands as is.

If the claim is not resolved, the COUNTY may, at its option, choose to submit the matter to mediation. A mediator shall be mutually selected by the parties and each party shall pay one-half (1/2) the expense of mediation. If the COUNTY declines to mediate the dispute, the CONTRACTOR may bring an action in the County or Circuit Court sitting in Lake County, Florida.

- ii. Claims by the COUNTY against the CONTRACTOR shall be made in writing to the Project Manager as soon as the event leading to the claim is discovered by the COUNTY. Written supporting data shall be submitted to the Project Manager. All claims shall be priced in accordance with the provisions of the section in this document entitled "Changes in Work". The party to whom the Project Manager's determination is not in favor of may appeal the determination as set forth in subsection (2) above.

No storage or equipment shall take place on private property unless the CONTRACTOR has a letter from the landowner stating that the CONTRACTOR has permission to do so. A copy of the letter shall be provided to the COUNTY. The CONTRACTOR shall supply the Project Manager any such letter before the equipment is placed there. Any and all other lands required by the CONTRACTOR shall be procured by the CONTRACTOR at the CONTRACTOR'S expense.
- B. As the work progresses, the CONTRACTOR shall keep the site reasonably clear of rubbish, trash, waste and other disposable materials on a daily basis. If the CONTRACTOR allows the site to become littered and unsightly, any payments otherwise due may be withheld until the CONTRACTOR cleans up the site to the satisfaction of the COUNTY. If the CONTRACTOR fails to clean up the site, the COUNTY may choose to clean up the site at the CONTRACTOR'S expense.
- C. The CONTRACTOR shall, absent written permission from a private property owner, confine all construction equipment, the storage of materials and equipment and the operations of workers to the project site and land and areas identified in and permitted by

the contract documents, and shall not unreasonably encumber the projects determined by the Project Manager or the COUNTY, with construction equipment or materials. The CONTRACTOR shall assume full responsibility for any damage to any such land or area, or to the owner or occupant thereof, or any land or areas contiguous thereto, resulting from the performance of the work. At the completion of the work, the CONTRACTOR shall remove all debris, rubbish and waste materials from and about the project site, as well as all tools, appliances, construction equipment and machinery and surface materials and shall leave the project site clean and ready for occupancy by the COUNTY.

If the CONTRACTOR does not comply with the F.H.W.A and M.U.T.C.D. (i.e. signs, qualified flaggers and/or barricades), the COUNTY reserves the right to direct the CONTRACTOR to cease operation until deficiencies are corrected. In addition, no road closures shall be allowed except in the case of emergencies.
 - i. All lane closures shall have the prior approval of the Project Manager.
 - ii. The foregoing requirements are to be considered as minimum and the CONTRACTOR'S compliance shall in no way relieve the CONTRACTOR of final responsibility for providing adequate traffic control devices for the protection of the public and CONTRACTOR'S employees throughout the work area.
 - iii. The use of public roads and streets by the CONTRACTOR shall provide a minimal inconvenience to the public and traffic. Furthermore, if the CONTRACTOR is utilizing the road by driving the equipment, the operator shall allow no more than three (3) vehicles to be backed up behind them at any time before pulling to the side to let traffic pass.

13. **UNDERGROUND UTILITIES**

Any claims submitted to the COUNTY such as, but not limited to, from utility companies or landowners, which are determined to be the result of damage done by the CONTRACTOR, shall be the responsibility of the CONTRACTOR. COUNTY reserves the right to pay any such claims and deduct such amount from the CONTRACTOR'S invoice. Repairs, or receipt of repairs, will be completed and submitted to the COUNTY prior to submission of the CONTRACTOR'S invoice for work accomplished. If the repair is not in accordance with COUNTY standards, the COUNTY shall repair the items and deduct the associated cost from the amount due the CONTRACTOR.
- B. Complaints shall be addressed within forty eight (48) hours and a written report submitted to the Project Manager outlining actions taken to correct the complaint. The CONTRACTOR shall notify the COUNTY immediately of any complaints given directly to the CONTRACTOR.
- C. - B. The CONTRACTOR shall preserve and protect all existing vegetation such as trees, shrubs and grass on or adjacent to the site which do not unreasonably interfere with the construction as may be determined by the Project Manager. The CONTRACTOR shall be responsible for

all unauthorized cutting or damaging of trees and shrubs, including damage due to careless operation of equipment, stockpiling of materials or tracking of grass areas by equipment.

- C. Care will be taken by the CONTRACTOR in falling trees authorized for removal to avoid unnecessary damage to vegetation that is to remain in place. Any limbs or branches of trees broken during such operations shall be trimmed without cutting into the trunk and left with a clean cut and a small stub. The CONTRACTOR will be liable for, or may be required to replace or restore at his own expense, all vegetation that may be destroyed or damaged due to the CONTRACTOR'S failure to protect and preserve same as required herein.
- D. The CONTRACTOR shall fully protect the work from loss or damage and shall bear the cost of any such loss or damage until final payment has been made. If the CONTRACTOR or any one for whom the CONTRACTOR is legally liable is responsible for any loss or damage to the work, or other work or materials of the COUNTY or COUNTY'S separate contractors, the CONTRACTOR shall be charged with the same, and any monies necessary to replace such loss or damage shall be deducted from any amounts due the CONTRACTOR.
- E. The CONTRACTOR shall not disturb any benchmark established by the COUNTY with respect to the project. If the CONTRACTOR, or its subcontractors, agents or any one for whom the CONTRACTOR is legally liable, disturbs COUNTY benchmarks, the CONTRACTOR shall immediately notify the Project Manager. The COUNTY shall have the benchmarks re-established and the CONTRACTOR shall be liable for all costs incurred by the COUNTY associated therewith. 16. **EQUIPMENT**

- A. CONTRACTOR shall furnish equipment of a type and quantity to perform the work satisfactorily within the time specified herein. The County reserves the right to inspect all

equipment before it is placed in or while it is in service. If in the opinion of the Project Manager, the CONTRACTOR has insufficient equipment on the job to satisfactorily complete the work within the required time, the CONTRACTOR shall provide additional equipment as directed by the Project Manager. All equipment may be inspected and approved by the Project Manager before it is placed in service. If at any time, the Project Manager determines that any equipment is deficient in any way, the CONTRACTOR shall remove the equipment from service immediately, and the equipment shall remain out of service until the deficiency is corrected to the satisfaction of the Project Manager. Inspection and approval of the CONTRACTOR'S equipment by the Project Manager shall not relieve the CONTRACTOR of responsibility or liability for injury to persons or damage to property caused by the operation of the CONTRACTOR'S equipment, nor shall it relieve the CONTRACTOR of the responsibility to meet the established time for the completion of the service.

- B. Any equipment left within the right of way shall be outside the clear zone. No equipment shall be parked overnight in the median.
- C. All service and supply operations shall be conducted outside the clear zone. No supply vehicles shall enter the median for any purpose. No service vehicles shall enter the median except when necessary to repair or remove inoperable equipment.

- A. The CONTRACTOR will cooperate with COUNTY personnel or anyone who may be engaged in authorized work prior to final completion of the project.
- B. The CONTRACTOR shall cooperate with the owners of any underground or overhead utility lines in their removal and rearrangement operations in order that these operations may progress in a reasonable manner and that service rendered by these parties will not be interrupted.
- C. The COUNTY may perform other work related to the project site or, in the general vicinity of the site by the COUNTY'S own forces, have other work performed by utility owners or other direct contracts. If other work is not identified in the contract documents and if the CONTRACTOR believes that such performance will involve additional expense to the CONTRACTOR or require additional time, the CONTRACTOR shall send written notice of that fact to the COUNTY and the Project Manager within two (2) business days of being notified of the other work. If the CONTRACTOR fails to send the above required notice, the CONTRACTOR will be deemed to have waived any rights it otherwise may have had to

seek an extension to the contract time or adjustment to the contract amount. The CONTRACTOR shall afford each utility owner and other contractors (or the COUNTY, if the COUNTY is performing the additional work with the COUNTY'S employees) proper and safe access to the site and a reasonable opportunity for the introduction and storage of materials and equipment and the execution of such work and shall properly connect and coordinate its work with theirs. The CONTRACTOR shall not endanger any work of others by cutting, excavating or otherwise altering their work and will only cut or alter their work with the written consent of the Project Manager and the others whose work will be affected.

- D. If any part of the CONTRACTOR'S work depends, for proper execution or results, upon the work of any other contractor other than a subcontractor or utility owner, the CONTRACTOR shall inspect and promptly report to the Project Manager, in writing within two (2) business days, any delays, defect or other problems in such other work that renders it impossible for the CONTRACTOR to obtain proper execution or results. The CONTRACTOR'S failure to report will constitute an acceptance of the other work as fit and property for integration with the CONTRACTOR'S work.

19. **BONDS.** This Section intentionally deleted.

20. **FINAL INSPECTION**

- A. Maintenance of Work. The CONTRACTOR shall maintain all work in as-new condition until the final inspection is completed and the work accepted by the Project Manager.

Upon written notice from the CONTRACTOR that the service has been completed (or upon receipt of an invoice), the Project Manager will make a final inspection within five (5) business days of receipt of notification. The Project Manager will notify the CONTRACTOR if necessary of any deficiencies, if any, with the project. The CONTRACTOR shall correct all deficiencies before final acceptance and payment is made. If the deficiencies have not been completed within the contracted time as stated on the notice to proceed, the Project Manager may send out a notification notifying CONTRACTOR of assessment of Liquidated Damages that can be applied for any day over the allowed time as stated on the Notice to Proceed.
- C. Once the deficiencies have been corrected, the CONTRACTOR shall notify the Project Manager when the deficiencies have been completed and corrected. If the deficiencies are not corrected when inspected, the CONTRACTOR shall be notified again in writing about any deficiencies. Once the repairs have been corrected by the CONTRACTOR, the Project Manager shall make another inspection. There shall be an eighty dollar (\$80.00) inspection fee assessed to the CONTRACTOR for this inspection and any re-inspection that may be required after that. The fee is assessed to offset the additional costs associated with COUNTY labor and vehicle usage required for unnecessary inspections. The fee(s) shall be deducted from the final invoice for that release order

21. **FINAL ACCEPTANCE**

- A. The contract will be considered complete when all work has been completed and has been

accepted by the COUNTY and the Project Manager. The CONTRACTOR will then be released from further obligation except as set forth in the warranty and/or bonds in this Contract.

- B. The COUNTY reserves the right, should an error be discovered in the partial or final estimates, or should proof of defective work or materials used by or on the part of the CONTRACTOR be discovered after the final payment has been made, to claim and recover from the CONTRACTOR or its surety, or both, by process of law, such sums as may be sufficient to correct the error or make good the defects in the work and materials, including any fees or costs associated with the additional services of the Project Manager.

22. **MEASUREMENT AND PAYMENT**

- A. All work completed under the terms of this contract shall be measured according to United States Standard Measures.
- B. All measurements shall be taken horizontally or vertically, unless specifically provided otherwise.
- C. In the measurement of items to be paid for on the basis of area of finished work, when the pay quantity is designated to be determined by calculation, the lengths and/or widths to be used in the calculations shall be the center line to center line shown on the plans, or the final dimensions measured of the completed work within the lines shown on the plans or designated by the Project Manager. The method, or combination of methods, shall be those which reflect with reasonable accuracy the actual area of finished work as determined and authorized by the Project Manager.
- D. No payment shall be made for either construction over a greater area than authorized, or for material moved from outside of the boundary shown on the plans, except when such work is performed upon instructions of the Project Manager, with the COUNTY'S approval.
- E. No payment shall be made on materials that are stored either on-site or off-site unless approved in advance by the COUNTY. Invoices shall only request payment for those materials that have been incorporated into the work. Determination as to whether the materials have been stored or incorporated into the work shall be solely the COUNTY'S decision.
- F. The CONTRACTOR shall accept compensation provided under the terms of this contract as full payment for furnishing all materials and for performing all work contemplated and embraced under this contract. Such compensation shall also be for any and all loss or damage arising out of the nature of the work or from the action of the elements, or from any unforeseen difficulties or obstructions encountered during the contract period until final acceptance by the COUNTY.
